DEADLINE FOR THE MARCH-APRIL ISSUE OF DOUBLETALK IS FEBRUARY 1, 1991

FROM THE EDITOR

Can 1991 surpass 1990 for tandems? Let's hope so! Last year was a banner year for the sport, and for the Tandem Club of America. The TCA was mentioned in magazines and newspapers from coast to coast, indeed, around the world. And it was in magazines and newspapers that do not normally feature cycling, such as US News & World Reports, the New York Times, Runners' World, US Today, Stars & Stripes, and many, many more. What was the reason? Perhaps the non-tandeming public is learning what we've known for years -- tandem bicycling is absolutely the most fun two people can have on two wheels! Let's hope the popularity continues.

Just a year ago, I wrote that it looked as if our membership might reach the 1500 team mark, if we were lucky and everyone helped spread the word! Let me assure you that we were lucky, and you certainly did spread the word! If you take a moment to look further in this magazine, you'll find the 36 pages of the annual membership list. This list now contains the names of more than 1800 tandem teams, and we're now shooting for 2000!. If you still have last year's directory, compare the map. You'll see that we gained members in nearly every state, and only a few states lost memberships. Look through the list -- it's sorted by State, City, Last Name. If you don't find your friends' names this year, ask them to (re)join. We miss them!

Several people are still missing the next issue after their membership lapses. Why? Doubletalk is mailed Bulk Rate. In many parts of the country, Bulk Rate (Third Class) is as fast as first class, but that's the exception, not the rule. In many places it takes three weeks for the mail to move from Birmingham, AL, to your house in Carpenteria, CA (and I'd hate to imagine how long it takes Bulk Rate mail to reach Juneau, AK!) If you wait until you receive the FINAL ISSUE notice -- "0 Issues Remaining" -- printed on your mailing label, and you haven't mailed your renewal check, you're probably going to miss the next issue!

To help keep you from missing any issues of Doubletalk, we've done two things: (1) we stamp "RENEW NOW" in green ink on your label when you have 1 Issue Remaining on your membership (we may miss a few, with 1800+ labels to check). That's your cue to get your check in the mail to Malcolm & Judy -- Don't delay! and (2) we now take multiple year membership renewals/joins. Just multiply the annual rate (currently \$10/year for memberships in the US, \$13US for Canadian memberships, and \$16US for other foreign memberships) times the number of years you wish to join for and mail the check for that amount to Malcolm and Judy, our treasurers. The mailing label program easily can handle multiple-year memberships. Joining for more than one year will lessen the chances of missing any issues, and you'll beat any increase in dues that might be coming down the pike.

The TCA will soon have a member/volunteer who's sole job is handling the merchandise sales, (currently TCA T-Shirts). We'd hoped to announce that person's name in this issue, but we couldn't work out the logistics in time. Watch for the announcement and introduction of these fine people in the next issue of Doubletalk.

The TCA is looking for another volunteer, too. We need an individual of the Northern Persuasion (we mean Canada, folks) who can assist the treasurer in setting up a US/Canadian dollar account in a Canadian bank for the Tandem Club. We need an account which has a relatively low minimum balance, or which pays interest on its balance, and one which does not charge an exorbitant fee for transactions. US banks, at least US banks near Philadelphia, charge sizable collection fees to cash checks drawn on Canadian accounts in US funds. Do any Canadian banks operate in the US? If you can help, please contact Malcolm Boyd & Judy Allison, TCA Treasurers, 19 Lakeside Drive NW, Medford, NJ 08055, Phone (609)-654-7063 evenings until 10 p.m. EST.

Time to close out this column. Remember to send us your articles and your Tandem calendar events (Tandem Racing events, too). We'll take it any way you can send it (we love IBM-formatted diskettes, both 3.5" and 5.25", with your submissions in ASCII files).

LETTERS TO DOUBLETALK

Dear Doubletalk,

We just want to start the year off right and thank you, the volunteers of the Tandem Club of America, for the wonderful way you help tandemists. We thoroughly enjoy each issue of Doubletalk, and we read it cover to cover once it is received. Plus, the newsletter gets passed around at the local bike shop, and even months later when we get the newsletter back, we read and reread the articles again.

All your efforts are appreciated! Thank you.

Thank you, Andrew and Robin. Your letter is a great way to start off a new year of TCA. The thanks are really for all the people who contribute,

via their letters and articles, as well as for the folks who work to keep the TCA going. We all appreciate your kind words.

Dear Doubletalk,

We recently purchased a Santana Visa, after some encouragement and test riding with our friends Carol and Gary Goble of Richmond, VA. I (Susan) put my clip-on pedals on my stoker position, and so far Will's only dropped me once (trying to start up on a hill) -- I mean, dropped me once on the pavement.

We're also joining the TCA. I've noticed in past issues some talk about members putting up tandemists who are passing through town. If you do list those, you can add our name to the list as willing putter-uppers (or whatever we'd be called).

We're now looking forward to our first newsletter of our own.

Dear Doubletalk,

We saw the letter of D. R. Heinle in a prior Doubletalk, and we would like to tell him of sources where he can buy long derailleur cables. We are also using the SunTour bar-cons, and we've found cables that are long enough. One place is The Third Hand, Box 212, Mt. Shasta, CA 96067. They sell steel cables that are 110" long, and they have SIS-type in this length. You might also try contacting the dealer members who advertise in Doubletalk. Some of them also carry the long cables. We got ours from Tandems, Limited.

In the same issue, Randy & Chris Dickinson are looking for a replacement headset for their tandem.

Again, we suggest contacting the dealer members who advertise in Doubletalk. You can also try our tandem builder: Cycles Follis, 10 Rue Danton, Lyon, 69003, FRANCE. Ask for a Bardon headset (give him all the dimensions). I guess you can write in English, but it would probably be better to write in French, and you would get a faster answer. There is also another builder in France who is selling a home-made headset with needle-bearings. This unit is supposed to be waterproof. This builder's address is: Cycles & Tandems, Daniel Cattin, R. N. 90 38190 Crolles, FRANCE. Again, be sure and include all the dimensions.

Dear Doubletalk,

Recently we had the opportunity to share a story of a couple making a TransAmerican crossing on their Tandem. She had done some cycling in England and Europe, and he enjoyed parachute jumping. They purchased one of the new lightweight English tandems with all the newest equipment. There were photographs taken and farewells exchanged, and these young newlyweds left San Francisco enroute to a historical anniversary at Gettysburg.

"And then before we could realize it we were on the bike and on our way, pedaling down the highway, headed for the time of our lives," they said. They learned a lot about themselves as a couple, as tandem cyclists, and as mechanics. Each day they grew stronger. How very fascinated they were with the different signs along the way, the people they met and the different cultures they encountered. As luck is with cycling, they ran into 40 riders of the St. Louis Cycling Club out on a Sunday morning ride.

Jim and Elisabeth had their share of problems along the route, as any cyclist would ... illness, injury, mechanical (the ever-famous broken spoke), windy days, hot, hot, weather, mountain crossings ... but on they continued, reaching Gettysburg with

five days to spare. Since they had time, they ventured down through our beloved Maryland and crossed the Chesapeake Bay into our cycling paradise, Maryland's Eastern Shore. Visiting family and passing ever so near our own home and on through our county back towards Gettysburg.

After Gettysburg they rode south to Virginia Beach to touch their wheel in the Atlantic before heading west, back home to California. What an experience, all the friends they made along the way, all the children encountered, all the simplest things others miss because they are not on a tandem, and how very close they became.

Did they make it back to California? Jim and Elisabeth Young covered 7,100 miles, of which they claim they pushed their tandem 100 of those miles. They figured they turned the pedals approximately 1,292,000 times. It was the longest tandem trip ever made in the United States (at that time), and the longest mixed-couple tandem trip ever made

Just for the fun of it! Brilliant colors printed on white 100% cotton T-Shirts. These one of a kind T-Shirts are sold only as a pair. Cost is \$25/pair, postage paid. Available in S, M, L, XL (also child sizes for the stoker); please specify size for captain and stoker. Available with or without a Burley Design logo on back.

Burley's Guide to Tandeming

Here's the definitive guide—something we tandemists have gone too many years without. Author John Schubert has an extensive bicycle road-testing background, and has owned a tandem since 1981. He brings his expertise as technical editor of Bike Report and past editor of Bicycling and Bicycle Guide. This manual has useful information for novice and experienced tandemists alike, and will be available late spring 1991 at a nominal cost.

bossa nova

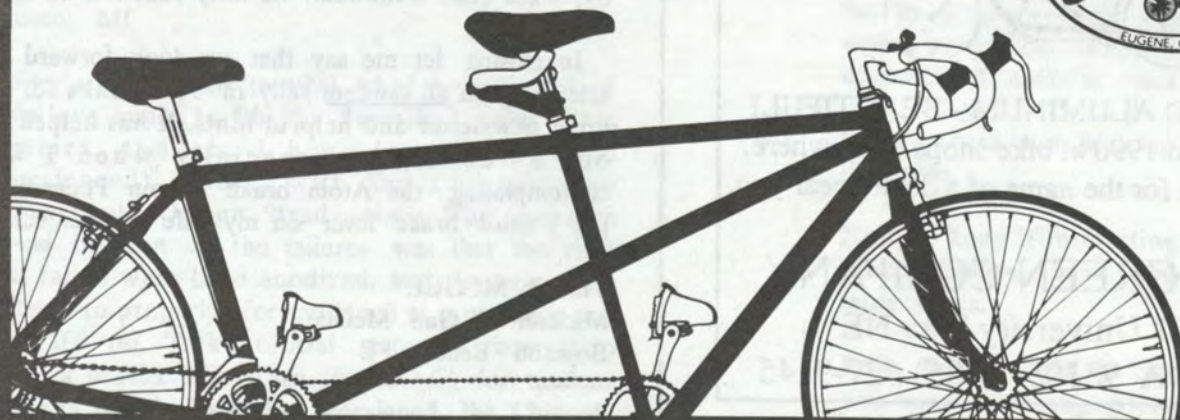

For those who opt for "first class" all the way. This innovative tandem is impressively light, fast, and responsive.

A Stage Race for Tandemists

If you love to ride your tandem competitively try this event: North America's only stage race held in Eugene, Oregon! Plan to join us next year over the 4th of July weekend for the 4th Annual Duet Cycling Classic. Each year it gets bigger and better, and there is excitement for all levels of racers (USCF license required).

This is a delightful, sweet, fast reading book of early tandem riding in America. We thank Don and Mary Verrico, Newark, DE, for the loan of the book and hope you can find a copy and share their trip with them as we did.

Dear Doubletalk,

We are new to tandem riding. I purchased our Peugeot tandem prior to our wedding on April 21, 1990. I completely rebuilt it and painted it myself. The tandem was a wedding present to my wife Gail. All of the hard work and long hours of working on the Peugeot paid off when we rode away from our wedding reception on the tandem (in full tux and gown)! We also had two bicycles put on the wedding topper of our cake!

Although we have not yet attended any of the tandem rallies, we have done two 3-day tours in our area. The Tour of Sebring is a 3-day event held over Labor Day weekend at the Kenilworth Lodge in Sebring, FL. It is put on by my local club, the West Palm Beach Bicycle Club, P.O. Box 6581, West Palm Beach, FL 33405. It consists of three days of riding, with rides ranging from 15-100 miles. We had 8 other tandem teams at this year's event.

We also attended the Mt. Dora Touring Festival this past October 19-21. This event draws over 1800 cyclists from Florida and the South. A lot of ride options exist including the challenging Assault on Sugarloaf, a brutal climb that left our legs and lungs burning! For those of you who think Florida is flat, it's not. We went up the steep side of Sugarloaf in a 27-inch gear at 4 mph! We never walked or had to stop. There is also an informal competition to see who can get the highest speed coming down the steep side of Sugarloaf. This year the maximum recorded was over 60 mph, recorded by, what else, a tandem. We only reached 48 mph.

In closing let me say that we look forward to attending an all tandem rally in '91. Thanks for the great newsletter and helpful hints. It has helped me out a few times, especially when I was contemplating the Atom brake on our Peugeot. (I put a third brake lever on my wife's handlebars.)

Dear Doubletalk,

My husband Howard and I have been the proud owners of a used 1989 Santana Chrono since May, 1990. The previous owner put about 1500 miles on it. We had a great deal of fun putting another 1500 miles on the bicycle this summer.

Our pleasure was marred by a rear-rim failure at about 2200 miles (total) of use. We were traveling downhill at 35 mph when I heard a crack, followed by an explosion as a tire blew. We were able to stop safely. Imagine our surprise to find that a 16-inch section of the rim's flange, the sidewall that holds the tire bead to the rim, had cracked away!

The rim was a hard-anodized Matrix ISO-C (36-hole) model laced 4-X with 14 gauge spokes to a Shimano DeOre XT cassette hub. Engineers at Trek, USA, the rim's manufacturer, thought that faulty alignment during the extrusion process had scored the rim flange, weakening it. Trek replaced the rim and built a new wheel for us at no charge.

Since our mishap, another local pair riding a Santana Targa had a similar crack occur on their rear wheel, also built with a Matrix ISO-C.

Has anyone else experienced this problem with aero or hard-anodized rims? If the problem is common, perhaps manufacturers need to re-evaluate the suitability of their rims for tandem use.

Sincerely,
Phyllis Boone
Jenison, MI

[Editor's Note: Prior to 1990 I had never heard of a failure such as Phyllis described here. This summer, though, I have learned of (and experienced) failures with Sun Chinooks and Campagnolo Omega Strada rims. The common thread between all the failures was that the rims that failed were hard anodized, and the tires were inflated to properly (for tandems) at a pressure just over 100 psi. Trek's official statement now is to select a heavier rim (than the ISO-C) for tandem use. Sun Metal Works has redesigned the Chinook and is producing the CRT-16 and CRT-20 rims as

rims especially for tandems. These rims should be available from your dealer in the spring. Campagnolo has withdrawn the 40-hole Omega Strada from production and has retreated to their drawing board. These rims, used only on the Santana Noventa, are being recalled and replaced with a Mavic Module 3CD, a rim that has been used for several years on high-performance tandems with no reported failures. If you own a Santana Noventa, your dealer should be contacting you soon, if s/he hasn't already, to schedule the rim swap.]

Dear Doubletalk,

I had a wonderful thing happen to me recently. A fellow tandem rider sent me some pictures (AND THE NEGATIVES!) of my two sons and me riding on our triplet. What a treat! Bike riding is one of our favorite family activities, but we have almost no pictures of us bike riding for the obvious reason: if you are taking pictures, you are not riding. We have lots of pictures of other tandems and riders, but very few of us. Wouldn't it be nice to have some kind of picture exchange? Read on for my suggestion. If there is interest, i.e., letters from other TCA members in support of the idea, I will formally ask the C.O.W.'s (host club for the 1991 Midwest Tandem Rally) to consider the following, or a variation of the following based on improvements suggested in letters from others.

My suggestion:

- Set up a table in the hospitality room where people can drop off pictures (and negatives if available and convenient).
- Others could then pick up pictures from the table.
- Now, to keep it interesting, fun, and put some incentive in it, there are a few more twists.
- From Friday night to Sunday morning, you may take any picture with your tandem/you in it.

There will be a jar for donations, preferably to a worthy not-for-profit organization. The organization could be chosen by a number of ways, but it may be best left up to the C.O.W.s.

Finally, starting about 9:00 a.m. on Monday (the last day of the MTR), anyone can donate and pickup any good pictures left on the table.

Well, what do you think? Am I nuts? Is this a great idea? What improvements can you suggest? Is there a better idea? In the absence of feedback, I will assume this idea has no merit and is not worth pursuing further.

Now, even if this idea is supported and works great, that does not help those of you who do not attend MTR. So, either start regularly attending MTR, or send me some other ideas. We should be able to find a way to make this work for all of TCA.

Dear Doubletalk,

To the gentleman who was having difficulty removing his drum brake, I'd like to pass on a tip from my local shop: Avoid the cost of the large 41mm sprocket (about \$35 at your local autoparts store, and then you may have to buy a new handle to fit it, too). Place a block of wood against one of the "fins" on the drum, then tap the block of wood gently with a hammer. Remember the drum is right-hand threads. This method works fine for me.

Dear Doubletalk,

After reading Tom Helm's letter in last month's Doubletalk, I decided to make a tool for removing the Arai drum brake. My tool is made of 1" square bar-stock with two steel pegs welded on at the appropriate spacing (to fit two holes on opposite sides of the flange) and a hole drilled midway between the pegs to allow clearance for the axle. If there is enough interest, we may make these for resale. If anyone wishes to make their own version, write me and I'll include a set of plans.

Dear Doubtful,

After reading Tom Hein's letter in last month's Doubtful, I decided to make a tool for removing the Arai drum brake. My tool is made of 1" square bar stock. I cut two 12" long pieces and cut the appropriate spacing (to fit two holes on opposite sides of the flange) and a hole drilled midway between the posts to allow clearance for the axle. Dear Doubletalk,

As of Monday, November 26, I had only received about 40 replies to my proposed brake survey. Some of the responses have been very interesting, but I'm really hoping to receive more responses. Ideally I'd like to hear from about 10% of the membership! Then I can produce a truly meaningful report for a future issue of Doubletalk.

If you haven't filled out the survey, please take the time to do so now. It's printed on page 24 of the November-December, 1990 issue of Doubletalk. If you don't have that issue, send me a SASE and I'll send you another copy of the survey!

Send the survey directly to me, not to Doubletalk. That will only delay my report.

Thank you.

Dear Doubletalk,

A cordial thanks for your letter and also Doubletalk, which is very useful to me. Sorry that I write in Polish but my English not the best. In Poland a Tandem Club <Kluby Tandemow> does not exist because tandem riding is little popular and so they are produced in small quantities. In my environs (Wroclaw) exists <Klub Cyklistow> which besides amateurs has club riders. A few clubs also have professional riders. Sport bicycling is not very popular, being deficient in good bicycling attire (shoes, jerseys, trousers) which are impossible to obtain in stores. My neighboring terrain is flat lowlands. Property bikes are not of the highest quality, I put mine together a few years ago out of many parts such as Shimano, Campagnolo, Mafac, Brooks, and Cinelli. The frame is made in Poland and is more than twenty years old. Conquering the problem of putting it together was very difficult because none of the parts are imported into Poland.

Amateur bicyclists have not very much choice in attire or parts because our industries bias the means of production towards bikes for everyday use. Mountain bikes are very popular abroad, but in Poland they are unknown. I dream about these mountain bikes but my dreams cannot come true. In Poland there are no adequate conditions to cultivate sport cycling. For that reason, to put us in those clothes is to talk nonsense. I myself travel by bicycle about 200 km (133 miles) per week.

I'd like to come to see your club, but unfortunately cannot obtain an entry visa to the USA.

Thanks; until we meet <to seeing>

Tadeusz Lepitak

[Editor: Thank you for the letter, Tadeusz. We hope to hear from you again, and wish you the best in the future. Perhaps, with the changes in Poland and throughout the world, we can all meet and cycle together sometime.]
